

Dear fellow neighbors and business leaders,

With great enthusiasm I have James (Jimmy) Redding officially announce my running of the city of Norcross council. My slogan for running for office is for the;

“Present and the Future”

What exactly does that mean? That means I plan to run for the existing public and the future to come. I plan to listen and implement sound logical ideas into movement. The days of tabling and waiting on my watch will be over.

I have been in the metro area of Atlanta for 29 years. I have thrived in two careers while living in the Atlanta metro area. I worked in public service for approximately ten years for the Dekalb County Police Department. I had learned a lot of survival and service skills. The police department taught me to make decisive quick actions that were fair and concise. I had to learn quickly who was a bad actor and a person with a heart that needed assistance. I learned what it was like to work with the public and local businesses. I also was taught to be a team player and work on coming up with solutions and following through. I was able to work with all walks of lives and diversity. I worked Buford Hwy with a huge diverse population and worked south Dekalb with another very large diverse population. With all the experience I was able to connect with the public and grow as a person who sees and understands the wants and desires of all walks of lives.

I took all that I had learned from my experience as a public servant in the Police department and moved it to the private sector. Myself and my wife have accomplished building four successful local restaurants with visions of a team aspect and service. Our goal is to listen to the customers and to give them what they deserve.

They deserve a quality meal at a fair price with exceptional service. This is what we strive for using the team concept and working together. I plan to follow those same ideals working for you as city council. I plan to implement fair and concise solutions and act on them. With the proper team in place the city will move forward at a pace that is consistent with Brookhaven, Chamblee, and Dorraville. We will not be left behind while other cities implement railroad silent crossing technology. Parking solutions and so many other concerns that involve what my fellow neighbors desire.

I plan to work with developers who desire to develop what's needed In the city. I plan to continue to keep downtown Norcross protected and preserve its old school charm. At the same time I plan to invite developers that can keep the consistent look and charm of old school downtown and bring us all new exciting places to eat or shop.

I also plan to work closely with the public safety of our city. I believe we have the only chief of police who walks his city on a consistent basis. (Amazing) I want to be sure he has all the tools and resources he needs to keep his stuff happy and desire to work in the city of Norcross. This is very near and dear to my heart. I not only worked in their shoes I still have family currently working in Law Enforcement and it's a job that takes a special person.

Lastly I'm James (Jimmy) Redding and if given the opportunity to serve my fellow neighbors I aim to please. I feel I'm the best candidate because I'm not that type of person who is going to tell you what you want to hear but take action on what you say. It time for new blood Norcross and let's show them what we can accomplish as team players

Sincerely your neighbor and business associate,

James (Jimmy) Redding
